

**Kinesiology Bulletin addendum****Effective 1998-99, 1999-2000, and 2000-01 academic years**

These curriculum changes were approved & implemented after the Kinesiology Bulletin was published Fall 1998.

Date	Dept.	Action
Sep-98	PE	All majors, beginning with the incoming class of fall 1998, will be required to take PHYSED349 WSI (or WSI Aide) as the swimming requirement.
Feb-99	PE	Students are no longer allowed to petition to graduate from the PE program without student teaching
May-99	PE	PHYSED 425 is required for all incoming PHYSED students (beginning with fall 1999)
May-99	PE	Physics 125 replaces Physics 106 as a prerequisite for MOVESCI 330 and PHYSED 432(now PHYSED 331)
May-99	PE	Distribution requirements were changed to 9 for both Humanities and Social Science
Sep-99	PE	PHYSED 425 was approved and cross-listed with MOVESCI and KINESLGY. It is also required for all PHYSED students beginning with the incoming class of 1999.
Nov-99	AT	Post BS students are now allowed to complete the requirements for the AT major. They will follow the same application, clinical and academic schedule as the other AT students, but will not be required to fulfill distribution requirements. This format is similar to the one used in Teacher Education
Nov-99	AT	AT students are encouraged to elect Psych 390 The Psychology of Personality rather than 250
Nov-99	AT	Nursing 305 will no longer be required for AT students admitted after Fall 1999
Nov-99	General	Required Kinesiology courses may not be taken pass/fail. This includes required classes taken outside Kinesiology (physics, English, etc)
Nov-99	MVS	Any 3 or 4 credit anatomy or physiology course (or combination course) taken at another institution can count as a substitute for the MOVESCI anatomy and/or physiology prerequisite
Nov-99	MVS	Nursing anatomy/physiology can be used to substitute for only one of the MOVESCI prerequisites (anatomy or physiology)
Nov-99	MVS	Upper division AT classes will no longer be accepted for upper division MOVESCI courses
Nov-99	PE	PHYSED 313 Foundations of Children's Movement (254) is being tried as an experimental course for winter. In Fall of 1999, it will become a required course and a prerequisite for PHYSED 350, 353, and 354
Dec-99	SMC	The idea of using a letter grade of "C" or better as the standard for 203 has been dropped. 203 will remain the prerequisite for 300 level courses, but it will not need to be repeated if the grade is below a C.
Jan-00	SMC	The prerequisite for SPTMGMTC 401 is senior standing. The prerequisite 203 has been removed since all SPTMGMTC students should already have taken 203 by their senior year and it is not required for students outside of Kinesiology.
Mar-00	PE	PHYSED 349 changed from 2 credits to 3 credits
Mar-00	PE	PHYSED 432 changed to PHYSED 331
Apr-00	MVS	For the Fall of 2000 ONLY, MVS faculty may substitute other classes for MOVESCI upper level courses (this is due to the low number of upper level courses offered in the fall). This will be decided on a case-by-case basis, with faculty advisor input.
May-00	PE	Beginning with fall 2001, all incoming PE students will be required to take PHYSED 254(Foundations). It will become the prerequisite for PHYSED 354.
Sep-00	AT	SPTMGMTC 226 is now required for AT students in order to provide students with a conditioning class. CET will be set at 15 and AT students will be overridden in the course.

**Dept. Codes:**

**AT** = Athletic Training

**MVS/MOVESCI** = Movement Science

**PE/PHYSED** = Physical Education

**SM/SMC/SPTMGMTC** = Sports Management & Communication / Sport Management

**KIN/KINESLGY** = Kinesiology (graduate level)
