\*A combined anatomy and physiology course taken in or outside of Kinesiology will be considered as fulfilling the ANATOMY 403 requirement only if it was a one-term course that covered all of the body systems. The first course of a two-term sequence which covers only ½ of the body systems will NOT fulfill the ANATOMY 403 requirement. Outside courses must be approved via petition.

\*\* Three credit hours of Independent Study, Internships, Readings, or Research courses in Movement Science can be substituted for three credit hours of the Upper-Division Movesci lecture-based courses.

\*\*\* Courses must be selected from the approved list which can be found in the Kinesiology Bulletin or on the Kinesiology website. Six (6) credits must be earned outside Kinesiology.

**Study Abroad (optional)**

On UM campus, enroll in language, anthropology, history, archaeology, geography, or political science courses related to host country to meet distribution requirements.

Study abroad during Fall or Winter semester of junior/senior year or Spring/Summer semester of any year. Kinesiology exchange partners offer movement science courses; other programs are available for general transfer credit.
