To begin...
1. Turn on **POWER STRIP** (if it's not already on).
2. Turn on **RECEIVER** and VCR (if they aren't already on)
3. Turn on Sony **PROJECTOR** (if it's not already on), using the **Power** (green) button on the **REMOTE**.
4. To change screen projection modes from **video** to **computer**, etc., click the **REMOTE's input** button (right under the **power** button).
5. Adjust audio volume using the **RECEIVER's volume knob**

### What do you want to project onscreen?

<table>
<thead>
<tr>
<th>AV Receiver</th>
<th>Visualizer Switch</th>
<th>Extron Box</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Classroom computer</td>
<td>Dell/IBM</td>
<td>VCR/Laserdish</td>
<td>2</td>
</tr>
<tr>
<td>Laptop computer</td>
<td>Portable</td>
<td>VCR/Laserdish</td>
<td>1</td>
</tr>
<tr>
<td>VCR/DVD player</td>
<td>VCR/DVD</td>
<td>VCR/Laserdish</td>
<td>1</td>
</tr>
<tr>
<td>Visualizer</td>
<td>Visualizer</td>
<td>Visualizer</td>
<td>2</td>
</tr>
</tbody>
</table>

### Problems? Here's a checklist:
1. Is the **POWER STRIP** turned on?
2. Are all AV components turned on?
3. Are all settings (as listed above) correct for what you want to project?
4. Press the **input** button on the **REMOTE** a few times
5. Press the **mute** buttons on the **REMOTE**:
   - If **pic mute** is on, you won't see an image
   - If **audio mute** is on, you won't hear the sound
6. Restart the **COMPUTER**
7. Turn everything (including the **POWER STRIP**) off, then on.

### Before you leave:
1. **If you're logged in, just log out.**
2. If you're the last instructor of the day, please **shut down** computer and turn off **POWER STRIP** inside cabinet. Put away **REMOTE** and lock cabinet.
