*A combined anatomy and physiology course taken in or outside of Kinesiology will be considered as fulfilling the ANATOMY 403 requirement only if it was a one-term course that covered all of the body systems. The first course of a two-term sequence which covers only ½ of the body systems will NOT fulfill the ANATOMY 403 requirement. Outside courses must be approved via petition.

** Three credit hours of Independent Study, Internships, Readings, or Research courses in Movement Science can be substituted for three credit hours of the Upper-Division Movesci lecture-based courses.

*** Courses must be selected from the approved list which can be found in the Kinesiology Bulletin or on the Kinesiology website. Six (6) credits must be earned outside Kinesiology.

Study Abroad (optional)

On UM campus, enroll in language, anthropology, history, archaeology, geography, or political science courses related to host country to meet distribution requirements.

Study abroad during Fall or Winter semester of junior/senior year or Spring/Summer semester of any year. Kinesiology exchange partners offer movement science courses; other programs are available for general transfer credit.
