## Worth a Thousand Words

Three ecstatic graduates pose for a quick photo before the April Kinesiology commencement ceremony.

Childhood Disparities Research Lab director Rebecca Hasson, research assistant Trevor Tooley, and their subjects bust a Just Dance move.

In May, professor Mark Rosentraub and "Sport in Contested Spaces" students visited Sammy Ofer Stadium in Haifa, Israel.

## In the News

Is FIFA's long history of corruption finally over? **Will justice be served to the world's soccer authority (and World Cup governing body)?** Don't bet on it, says Stefan Szymanski, professor of sport management, in his *New York Times* op-ed.

Two new hands-on digital-based courses will be available to undergraduates starting this fall. Motion Capture, taught by movement science associate professor Melissa Gross, **uses technology to collect, analyze, and manipulate human movement data.** Clinical Gait Analysis, taught by movement science assistant professor Deanna Gates, **uses technology to assess how patients walk.**

**The NCAA and Department of Defense are funding the biggest concussion study in history.** Steven Broglio, associate professor of athletic training, and his collaborators are hoping their research will turn anxiety into answers.

This year's Superbowl was overshadowed by scandal - but **what long-term impact will "Deflategate" have on the brand value of New England Patriots quarterback and U-M alum Tom Brady?** Dae Hee Kwak, assistant professor of sport management, tells *MarketWatch* that fans will be able to rationalize Brady's behavior.

Ketra Armstrong, associate dean of graduate & faculty affairs and professor of sport management, and Dan Ferris, professor of movement science, **will be inducted as National Academy of Kinesiology (NAK) Fellows** at the annual meeting in September. Only 11 national fellows will be elected this year.

### Alumni Spotlight

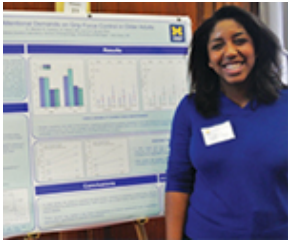

New research by alumnus Greg Sawicki (Ph.D. '07) and his collaborators may **benefit able-bodied people who are frequently on their feet, stroke survivors, and people with other gait impairments**. This ground-breaking study was published in the April issue of *Nature*.

What have YOU been up to? Send us an update and you might be featured in our next Alumni Spotlight!

### Student Voices

Along with finals and graduation, April at the University of Michigan means celebrating student research. **The Undergraduate Research Opportunity Program (UROP) Spring Symposium and Graduate Student Research Showcase** are a culmination of the year's research and analysis - and a jumping off point for future research, work, and education.

### Upcoming Events

**JUST ADDED!** Join the liveliest soccer fans in Michigan as we cheer on the Detroit City Football Club on **June 28** at Cass Tech Stadium. Tickets are \$13, with \$5 going to the Maloy Scholarship. Learn more and purchase tickets at <http://bit.ly/1Gk6SO7>.

Show your U-M spirit, take in a Tigers game, and support a good cause - all in one day! Join us for Wolverines in the D on **September 25** at Comerica Park. Learn more and purchase tickets at <http://atmlb.com/1EDMpVb>.
