

Michigan Sport Management Program

Student Application for Funding to Support Experiential Learning

Sport Management students may submit this application to request funding to support experiential learning activities. Experiential learning activities are hands-on activities that complement your learning outside of the classroom, reinforcing content learned in your courses. Such activities might include participation in a sales competition, case competition, or business conference.

Applications may be submitted beginning October 1st through April 1st. Applications will be considered by the Sport Management faculty as they are received with reviews taking place once per month. This means you may expect a response two to five weeks after submitting your application.

You may submit a request for any amount, not exceeding \$1500. Only complete applications will be considered. Awards are not guaranteed.

Submit your complete application as one PDF to Sport Management Director Kelli Donahue via kjdonahu@umich.edu with "Request for Experiential Funding" in your email subject line.

Application Must Include

- 1. Responses to the following**
- 2. An unofficial transcript**
