

National Awards and Fellowships

There are funding sources available outside of the University of Michigan and the School of Kinesiology. Every few months we do a search to see if we can locate any third party funding sources for our students and update the list below. The scholarships/fellowships below are to be submitted by the student, you do not require a nomination from the graduate program to apply. If you have additional questions regarding the opportunities listed below or suggestions about other opportunities you have received in the past, please email Tahirah at tgimson@umich.edu.

Please note that specific University of Michigan procedures need to be instituted for external research awards and fellowships. All opportunities listed below are subject to internal processes. If you and your faculty advisor choose to apply for a research funding opportunity that is listed below, please email Elizabeth Tropiano at etropian@umich.edu for a determination. If the application must be processed through the University of Michigan system, it is recommended that you begin preparing your application and speak with the Research Process Manager 8 -12 weeks prior to the sponsor deadline.
