

# Movement Science Cognate Courses

The Movement Science Major requires that a minimum of eleven credit hours of cognate elective courses be completed outside of Movement Science. In addition, six of the eleven credit hours must be earned outside of School of Kinesiology courses.

The Movement Science department maintains a list of currently approved Movement Science Cognate Elective Courses (see below). Credit hours are listed in parentheses. Courses fulfilling University distribution requirements are indicated by HU, NS, and SS. Students are encouraged to choose cognate courses that may fulfill graduate or professional school requirements.

If a course does not appear on the list, students may petition for approval by completing a Program Petition Form (available online on the Forms and Bulletins page of the Kinesiology website under the Undergraduate dropdown tab at <https://www.kines.umich.edu/student-services/forms-bulletins>). **The petition should be as detailed as possible and the petition statement needs to explain how the proposed cognate relates to Movement Science.** Courses that do not have specific distribution designation may also be petitioned for distribution. Be prepared to submit a syllabus at the time that you submit your petition online.

*PLEASE NOTE: This list is subject to change.*
