Professional Experience

Templin has a wide breadth of experience in higher education. After completing his doctoral degree at the University of Michigan, Templin was appointed at Purdue University in 1977 where he served as a professor and administrator over a 38-year career at Purdue. He worked in both the academic and student service sectors of the university. In 2015, Templin returned to his alma mater, the University of Michigan, where he served as a Professor and Associate Dean until his retirement in June of 2022. Prior to his retirement, Templin was appointed to his current role of Executive Director of the American Kinesiology Association. Templin has been engaged in various professional association and university service roles over the four decades in higher education. As noted below, Templin has received various honors throughout his career. In March of 2026, he received the Luther Halsey Gulick Award – the highest honor of the Society of Health and Physical Educators – America.

Outstanding Teacher Education Award in the State of Indiana, Indiana
Association of Colleges for Teacher Education: 1986

Teaching

Throughout his academic and student services tenure at the university, Professor Templin was engaged in both undergraduate and graduate education as a teacher and advisor. Templin was elected to Purdue's Book of Great Teachers in the fall of 2013 honoring those who have been exemplary teachers at the university. Templin was awarded the outstanding teacher educator award by the Indiana Association of Colleges for Teacher Education in 1986. He has published and presented conceptual and empirical papers in the area of teacher socialization (see Research/Scholarship section). He is a co-author with Don Hellison of a book on reflective teaching in physical education. He co-authored a book chapter in *Introduction to Kinesiology* with Kim Graber that introduces students to the area of Sport Pedagogy. Furthermore, he

authored a document that has led to the development of PE standards for the State of Indiana. He served as co-editor of a document entitled, *National Standards for Beginning Teachers of Physical Education*. Upon his appointment at the University of Michigan, Templin taught courses at the undergraduate and graduate level in research writing and research methods.

Purdue University (1977-2015)

Contributions in Course and Curriculum Development

PE 539 Pedagogical Studies in Physical Education

A course designed to introduce the student to the role and socialization of the physical educator as well as to social/psychological factors influencing the physical education class. This course includes literature in role theory, socialization theory, professional preparation, expectancy theory, and descriptive-analytic research.

Preparation of Instructional Materials

Dr. Templin developed two texts for use in PE 539 and PE 330 respectively.

PE 539 - *Learning to teach: Socialization in Physical Education* (edited text with P. Schempp).

PE 330 - *A reflective approach to teaching physical education* (with D. Hellison).

Research/Scholarship

Templin's academic research/scholarship has focused on role and socialization theory. Specifically, he has examined socialization processes linked to pre-service and in-service teachers alike. He is particularly interested in studying the lives and careers of physical education teachers as reflected in his past work with Sparkes and Schempp and current work with Richards as well as former doctoral students. Templin's scholarship over the last two decades has centered on the status of PE teachers and teacher change, Physical Education Teacher Education (PETE) standards, Redesign of Physical Education Curriculum, and teacher evaluation.

More recently, Templin was a member of the INPact research team that focuses on a professional development intervention focused on in-class physical activity program in elementary schools within Saginaw, Michigan. The study was funded by the Michigan Health Endowment Fund.

Templin presented the Charles McCloy, Raymond Weiss, and Daryl Siedentop Lectures for his contributions to research in physical education at the Society of Health and Physical Educators America Annual meetings (see honors and presentations). He was honored at the annual meeting of the AAHPERD Research Consortium in April of 2014 by being named the McCloy Lecturer. In the spring of 2012, Templin received the Research on Learning and Instruction SIG Scholar Award (AERA), the highest honor for contributions to research in the field. He has received the AAHPERD Honor Award and the Curriculum and Instruction Academy (NASPE) Honor Award

for his contributions in Sport Pedagogy. Also, as a tribute to his achievements, he was inducted into the National Academy of Kinesiology (NAK, formerly AAKPE) in the fall of 2006. He is a Fellow of the Research Consortium of the Society of Health and Physical Educators – America (SHAPE) which presented Templin with its highest honor dating back to 1923, the Luther Halsey Gulick Award. The Gulick Award honors individuals whose career-long contributions have significantly advanced the field. Recipients are recognized for exemplary leadership, service, and impact on the profession, often inspiring future generations to lead healthy, active lives

Professor Templin served as the initiator, proposal author, and director of the 14th C.I.C. Big Ten Body of Knowledge Symposium in Physical Education. This was the first time, in its thirteen-year history, that the Big Ten directors of physical education supported a symposium related to research on teaching. This support was due directly to Professor Templin's ability to procure additional funding and to develop an outstanding program featuring leading scholars from across North America. In addition, Professor Templin and Professor Janice Olson edited the proceedings of the symposium, *Teaching in Physical Education*, published by Human Kinetics Publishers in 1983.

Service

Through his invited memberships on various committees at the national, state, university, college/school, and departmental level, Dr. Templin has displayed his strong commitment to his academic field, student services, and other university activities. He served as the President of the National Association of Sport and Physical Education from 2003 to 2006 and became the President of the American Kinesiology Association in January of 2017. Templin is currently the Executive Director of the American Kinesiology Association (AKA) through his appointment in December of 2020. He is co-editor of *Careers in Sport, Fitness, and Exercise* with Kim Graber and Penny McCullagh (Human Kinetics, Fall, 2025) in association with AKA.

Templin's work within student services at Purdue University was reflective of his desire to promote the quality of life among students, faculty, and staff. During his appointment as Assistant Vice President of Student Services at Purdue. Templin implementation leader on the

Undergraduate Student Entry project resulted in a variety of changes in admission's processes at Purdue. This emphasis has continued in his role as Associate Dean for Undergraduate Affairs through his work with the Office of Undergraduate Student Affairs at the University of Michigan. He was involved in various accreditation processes including contributing to the University of Michigan's review by the Higher Learning Commission as well as other contributions to various committees at the University of Michigan.
