Dear colleagues,

With yesterday's announcement regarding the University's stance on COVID-19 precautions and social distancing, the following protocols are advised for all School of Kinesiology events from now through April 21.

- The School of Kinesiology will follow the University's mandate that all events with 100 or more expected attendees is to be moved to a virtual format, canceled outright, or postponed until after the threat is reduced.
- Additionally, it is strongly recommended that virtual options, postponement, or cancelation be seriously considered for ALL School of Kinesiology events (through at least April 21), regardless of size.
- If, after careful consideration, you decide to move forward with a small, in-person event, please contact me for assistance in developing a comprehensive risk mitigation plan for the safety of your event attendees and the community.
- If you need assistance changing your event to a virtual format, please let me know. I am happy to help brainstorm the possibilities and provide resources/tool kits as necessary.
- If you have an event that is already on the event calendar for this time frame (Research Seminars, Campus Days, etc.), please plan to provide me with an update on what your decision is (cancel, postpone, virtual) at your earliest opportunity.

Thank you all for your part in ensuring the health and safety of our community. If you have any questions, let me know. Additionally, please feel welcome to pass this along to colleagues I may have missed who can benefit from this information.

Sincerely,
Deveny
